The NWO vs The Nation-State

Was the USSR an evil empire? Yes!

It was also created by the USA.

Don't believe me? Inform yourselves by reading Antony C. Sutton's book entitled '[Wall Street and the Bolshevik Revolution](#)'. Did Stalin kill millions of people including Ukrainians? Yes. Did the [New York Times cover-up Stalin's genocide](#)? Yes. Did the Wall Street bankers fund arms through Russia used against U.S. Soldiers in Vietnam? Yes. Is Putin a saint? No. Putin is ex-KGB (USSR) and as a

requirement of staying in power must deal with the corrupt oligarchs left over from the USSR era and the newly minted mafiosi in Russia today. While all of this is true, don't confuse the old Soviet USSR (existed between 1922 and 1991) with the current Russian Federation. They are not the same. The '[Anglo-American Establishment](#)' of international bankers who run the USA are after a one world government. Putin still believes in the '**nation-state**' as most Americans do. This, my friends, is what the real battle with Russia is all about. The propaganda you read and watch in the Western press is orchestrated by the same people who are shredding the U.S. Constitution and would enslave you. Get a clue. By buying into and repeating the Western propaganda against Russia, you are unwittingly promoting the sacrifice of your sons and daughters to advance the NWO's agenda and your own enslavement.

"There has been a continuing, albeit concealed, alliance between international political capitalists and international revolutionary socialists – to their mutual benefit."

-Antony C. Sutton

David Brown

Having read the Antony Sutton books James Corbett references in his excellent podcast (below), certainly helps provide for a much better historical context; and helps to fill in the gaps in any story this big. As usual, this is a well-researched video/podcast that will provide a deeper understanding of the ruling oligarchies, and also an understanding of the way James vets and conducts his research. Many hours/years put into this short piece. If you are familiar with Antony C. Sutton's and Carroll Quigley's work, all of this will make much more sense. In any event, Hope you enjoy and benefit.

James Corbett: *"Military tensions, cyber espionage accusations, a brewing currency war; with every passing day, the headlines paint a convincing portrait of an emerging cold war between China and the West. But is this surface level reality the whole picture, or is there a deeper level to this conflict? Is China an opponent to the New World Order global governmental system or a witting collaborator with it? Join us in this in-depth edition of The Corbett Report podcast as we explore China's position in the New World Order."*

China and the New World Order...

A final thought: So what is the Big Picture? First off, the state does not equal the oligarch. One oligarch will play, maneuver and influence one or more states into a particular configuration to his liking to influence relatively current events. More often one or more oligarchs will combine their efforts for a particular goal. See the specific techniques used by Cecil Rhodes and Lord Milner of the Milner group. For the longer-term strategies, they use the outer rings of the kindergarten, along with the media, prestigious Universities rewriting history if necessary by cultivating and seducing those bright minds it discovers and supports financially for doing the right thing. Remember, they are the establishment. All other opinions are suspect. Quigley gives specific, documented examples of how this is constructed and how it is accomplished in the real world. Joe Plummer does an excellent job making some of these techniques up-close, personal and real in his novel 'Leaving the Illusion'. It is important to remember that despite the position of the state and the people within the state, the oligarchs have much more in common with each other than they do with their respective citizens. The state represents pieces on the chessboard and they are not generally

emotionally vested in a state the same way commoners are. Many in Lord Milner's day did, however, believe that the British culture was superior; today's oligarchs are less inclusive and represent a 'break-away' civilization. Most of these people show all the love and care and remorse of your typical psychopath and LITERALLY see most of their fellow citizens as bugs to be squished beneath their feet. To most of these folks, we are worthless breeders and eaters consuming their resources. –David Brown

Postscript and additional clarification: Let's see if I can deconstruct my comments above just a bit: My first comment was that the state does not equal the Oligarch. What this means is that to a certain extent, the state and those who support and believe in the state do not necessarily have parallel agendas with the real power centers. For example, within the state, you have true believers of the state's authority and legitimacy in the general population, in universities, authorities, politicians, bureaucrats and the trained technocrats (who BTW work for the oligarchy without realizing it); and of course, certain elements in the defense apparatus. So this collection of folks in say China or Russia can have disagreements with their analogues in say the USA, etc. But what none of these folks are aware of, is the real power which controls the overall vector (direction and force). These folks can be seen as looking at just part of the elephant without ever seeing the entire beast and thus the beast is not recognized for what it is. This is what Quigley calls rings within rings.

The Quigley Formula – G. Edward Griffin lecture

Additional NFO:

At least 18 of the Immortals' descendants own or run entities linked to companies registered offshore, including the British Virgin Islands and the Cayman Islands, as well as Liberia and other jurisdictions that offer secrecy, the reporting showed.

While the Immortals vilified the "bourgeois individualism" of capitalist nations, almost half of their heirs lived, studied or worked abroad, some in Australia, England and France. The princelings were among the first to travel and study overseas, giving them an advantage not available to ordinary Chinese.

The U.S., which established diplomatic ties with Communist China in 1979, was the top destination: At least 23 of the Immortals' descendants and their spouses studied there, including three at Harvard University and four at Stanford University, according to the Bloomberg data. At least 18 worked for U.S. entities, including American International Group Inc. and the law firm White & Case LLP, which hired one of Deng's grandsons. Twelve owned property in the U.S.

There is no accepted measure for the degree of control the princelings exert on the economy. Academics who study China estimate that wealth and influence is concentrated in the hands of as few as 14 and as many as several hundred families.

<http://www.bloomberg.com/news/articles/2012-12-26/immortals-beget-china-capitalism-from-citic-to-godfather>

"MAO WAS A YALIE – Back in 1903, Yale Divinity School established a number of schools and hospitals throughout China that were collectively known as 'Yale in China.' It has since been shown that 'Yale in China' was an intelligence network whose purpose was to destroy the republican movement of Sun Yat-sen on behalf of the Anglo-American Establishment. The Anglo-American "Establishment" hated Sun, because he wanted to develop China. On the other hand, they loved the Chinese communists because they intended to keep China backward, and were committed to growing dope. One of 'Yale in China's' most important students was Mao Zedong.

"During World War II, 'Yale in China' was a primary instrument used by the U.S. Establishment and its

Office of Strategic Services (OSS) to install the Maoists into power. 'Yale in China' was run by OSS operative Reuben Holden, the husband of Bush's cousin, and also a member of Skull and Bones.

"The Maoists made China into the world's largest opium producer. "'Yale in China' was also closely associated with the New York-based Union Theological Seminary, which has been a center for U.S. subversion of Asia (literal wolves in sheep's clothing – Branton). Every prominent radical leader operating in Korea today, for example, was trained at Union Theological. Union Theological was dominated for twenty years by Henry Sloane Coffin, a U.S. intelligence executive from the Sloane and Coffin families. He was a Skull and Bones member as were a dozen of his relatives.

"Nor should it be forgotten that Averell Harriman, the former Ambassador to Moscow who did so much to build up the Soviet Union, was a member of Skull and Bones. Harriman was also a business partner of Prescott Bush, Sr., the father of Maoist enthusiast George Bush."

Note: This Skull and Bones – Communist connection is also confirmed by geopolitical and economics researchers such as Dr. Antony Sutton (Sutton's books may be obtained through THE PATRIOT REVIEW., 33836 SE Kelso Rd. #6., P.O. Box 596., Boring, OR 97099; OR via THE MIDNIGHT MESSENGER., P.O. Box 472., Altadens, CA 91001). Not only did the Skull and Bones (Western Illuminati) help to build up the Communist movement in China, but they gave considerable financial aid to the Soviet Union communists as well. According to Sutton, this power cult has for centuries been playing a "two ends against the middle" type of game, attempting to control America (the thesis) and Russia (the anti-thesis) and other countries or movements, carefully pitting them against each other at the lower levels in order to keep the populations of the world in a state of confusion and despair, to the point that they will – hopefully – resign themselves into accepting the New World Order "synthesis" as the only alternative to solve the very "problems" which THEY, the New World Order initiators, created in the first place! One startling, though documented, claim which Mr. Sutton makes is that the Nazi Movement was largely financed by the Skull and Bones -Illuminati as well. This connection was recently described in a mailer describing Val Valerian's book MATRIX III (c/o Leading Edge Research., P.O. Box 481-MU58., Yelm, WASH 98597). Part of this mailer states:

"Interspaced with the material comes a host of data, supplementary material, interviews, and revealing information. The 'Final Scenario' is discussed relative to the New World Order and the plans for total economic control, a one-world religion, and the electronic mind control objectives, schools of thought, and research. MATRIX III brings out in detail how various families in the United States and Europe are also involved in a scenario which has as its main tenet the suppression and elimination of human beings on many levels – a scenario which includes worldwide traffic of drugs, vast laundering of drug money by national banks of several countries, and assassination and murder. These are the people who arranged and supported all the wars. There is discussion of the Bush family, and how Prescott Bush assisted the finance and management of the Nazi empire – the so-called Hitler project...

Wall Street and the Rise of Hitler

'Wall Street & the Rise of Hitler' by Antony C. Sutton

Makes every previous book on World War II Obsolete

Finally, a distinguished scholar has penetrated the cloak of falsehood, deception, and duplicity that for more than thirty years has protected one of the most incredible secrets of World War II: the support from key Wall Street financiers and other international bankers in subsidizing Hitler's rise to power.

Professor Antony C. Sutton proves that World War II was not only well planned, it was also extremely profitable – for a select group of financial insiders. Carefully tracing this closely guarded secret through original documents and eyewitness accounts, Sutton documents the roles played by J.P. Morgan, T.W. Lamont, the Rockefeller interests, General Electric Company, Standard Oil, National City Bank, Chase and Manhattan banks, Kuhn, Loeb and Company, and scores of other business elitists.

'Wall Street and the Rise of Hitler' shows how the bloodiest, most destructive war in history was financed and promoted.

In an effort to better understand today's political and economic structures, it is important to take a look back to discover from whence they came and how they arrived at the apex of the predominant power structure we see all around us today.

Like no other, Carroll Quigley gave us a back-stage introduction of the actual workings of the network who shaped yesterday's world. (See: [Anglo-American Establishment and Tragedy and Hope](#)) In today's world, we see these same forces, structures and techniques at work from the happy heirs of the power structure set into motion by the [Anglo-American Establishment](#). Some of the names have changed, but there exists an unmistakable lineage that can be exposed by fact, not conjecture or theory.

“Old John D. Rockefeller and his 19th century fellow-capitalists were convinced of one absolute truth: that no great monetary wealth could be accumulated under the impartial rules of a competitive laissez faire society. The only sure road to the acquisition of massive wealth was monopoly: drive out your competitors, reduce competition, eliminate laissez-faire, and above all get state protection for your

industry through compliant politicians and government regulation. This last avenue yields a legal monopoly, and a legal monopoly always leads to wealth.

This robber baron schema is also, under different labels, the socialist plan. The difference between a corporate state monopoly and a socialist state monopoly is essentially only the identity of the group controlling the power structure. The essence of socialism is monopoly control by the state using hired planners and academic sponges. On the other hand, Rockefeller, Morgan, and their corporate friends aimed to acquire and control their monopoly and to maximize its profits through influence in the state political apparatus; this, while it still needs hired planners and academic sponges, is a discreet and far more subtle process than outright state ownership under socialism. Success for the Rockefeller gambit has depended particularly upon focusing public attention upon largely irrelevant and superficial historical creations, such as the myth of a struggle between capitalists and communists, and careful cultivation of political forces by big business. We call this phenomenon of corporate legal monopoly—market control acquired by using political influence—by the name of corporate socialism.”

Many of us have taken the time to discover how the Federal Reserve was brought into existence by a few self-serving and very dishonest private bankers back in 1913. But I doubt that many have looked into the history of the Bolshevik Revolution in October of 1917 which was financed and carried out by some of the same characters who brought us the Federal Reserve Act of 1913.

What I can tell you about the history of Russia is that tyrants have ruled the peoples located there since the beginning of written history so it was with amazement when I learned Russians had a real chance for freedom after the overthrow of the Russian Empire which had existed from 1721 to February 1917.

Wall Street and the Bolshevik
rev

For eight months between February and October of 1917 Russia was ruled by a provisional government. During this eight month period of time there was a strong Libertarian movement and the Russian people had a real chance at freedom; but this chance was eliminated by the same folks who brought America the Federal Reserve. In fact, one of the major actors who helped finance the enslavement of the Russian people was none other than William Boyce Thompson the head of the Federal Reserve Bank of New York from 1914 to 1919.

NOTE: This book is on the [ClearNFO Reading List](#)

Introduction for 2002 Edition

AMERICAS SECRET ESTABLISHMENT 'has had an unusual publishing history.

The book began with an anonymous donation to the author of an 8-inch package of documents in the early 1980s. Nothing less than the membership list and supporting documents for a truly secret society the Yale Skull and Bones.

The late Johnny Johnson, of Phoenix Arizona was the spark that moved me to write first a four-part series and later, a jumbo volume based on this material.

This volume went to several editions with several publishers, even a Russian

edition of 12,000 copies. Probably in the past few years, as many copies have been sold in Russia as in the United States.

America's Secret Establishment has had little publicity, few reviews ignored by mainline distributors yet, has sold steadily for the past 16 years at a rate of several hundred copies a month.

This activity, in turn, has generated other articles and books by other authors. But my real intent, to generate an exploration of Hegelian influence in modern America, has not been fulfilled. In great part, this can be attributed to an educational system based on a statist-Hegelian philosophy, and which has already achieved the "dumbing down" of America.

This disastrous, destructive philosophy, the source of both Naziism and Marxism, has infected and corrupted our constitutional republic. Much of the blame for this corruption is with an elitist group of Yale

“Bonesmen.” Their symbol of Skull and Bones, and their Hegelian philosophy, says it all, although with typical duplicity, they would have you believe otherwise.

Hegelianism glorifies the State, the vehicle for the dissemination of statist and materialist ideas and policies in education, science, politics and economics.

Wonder why we have a “dumbed-down” society? Look no further than the Bonesman troika who imported the Prussian education system into the U.S. in the 19th Century. A political philosophy in direct opposition to the classical liberalism nurtured in 19th Century British and American history. In classical liberalism, the State is always subordinate to the individual. In Hegelian Statism, as we see in Naziism and Marxism, the State is supreme, and the individual exists only to serve the State.

Our two-parry Republican-Democrat (= one Hegelian party, no one else welcome or allowed) system is a reflection of this Hegelianism. A small group – a very small group – by using Hegel, can manipulate, and to some extent, control society for its own purposes.

More than that, reflect on their pirate flag. An emblem found on poison bottles, the symbol of the Nazi Death Head Division in World War Two. Not only did Skull and Bones become a major force in drug smuggling (the Bush and Prescott families in the 1860s), but in true Hegelian fashion, generated the antithesis, the so-called “war on drugs.” This hypocritical policy maintains the price of drugs, controls supply, and puts millions in jail while the gainers, in great part, are none other than the same “Bonesmen” who pass the laws to prohibit (Bonesman Taft, 1904).

Right and Left – A Control Device

For Hegelians, the State is almighty, and seen as “the march of God on earth.” Indeed, a State religion.

Progress in the Hegelian State is through contrived conflict: the clash of opposites makes for progress. If you can control the opposites, you dominate the nature of the outcome.

We trace the extraordinary Skull and Bones influence in a major Hegelian conflict: Naziism vs. Communism. Skull and Bones members were in the dominant decision-making positions – Bush, Harriman, Stimson, Lovett, and so on – all Bonesmen, and instrumental in guiding the conflict through use of “right” and “left.” They financed and encouraged the growths of both philosophies and controlled the outcome to a significant extent. This was aided by the “reductionist” division in science, the opposite of historical “wholeness.” By dividing science and learning into narrower and narrower segments, it became easier to control the whole through the parts.

In education, the Dewey system was initiated and promoted by Skull and Bones members. Dewey was an ardent statist, and a believer in the Hegelian idea that the child exists to be trained to serve the State. This requires suppression of individualist tendencies and a careful spoon-feeding of approved knowledge. This “dumbing down” of American education is not easily apparent unless you have studied in both foreign and domestic U.S. universities – then the contrast becomes crystal clear.

This dumbing down is now receiving attention. Two excellent books are *The Deliberate Dumbing Down of America*, by Charlotte Thomson Iserbyt (Conscience Press, Revenna Ohio, 2001), and *The Dumbing Down of America*, by John Taylor Gotta. Both books trace this process to the impact of education, and both give remarkable detail of the process. We go further, in that we trace the import of the system to three Yalies – members of Skull & Bones.

For Iserbyt, in *The Deliberate Dumbing Down of America*, the American education system begins with

Rockefeller and Gates. But in fact, this statist system is a reflection of the Hegelian ideas brought to the United States by the Skull and Bones “troika” of Oilman, White and Dwight, and then financed by Rockefeller.

People Control

Today in California, one can see in real time the use of controlled conflict to achieve a desired outcome. The debate over the energy crisis is carefully contained to a debate over price caps and price control. Republicans want no caps and no controls. Most Democrats want price controls through caps.

But look at what is NOT discussed anywhere. The entire spectrum of almost free energy, based on a decade of research is carefully kept out of the discussion. Isn't this highly relevant to an energy crisis?

In fact, the existence of free energy systems just down the road is the reason for the controlled debate. Mills Blacklight Power now has its patents and some utilities have already bought in. Bearden's MEG energy from space, is under discussion. Working models exist. The maligned cold fusion has hundreds of successful experiments, but so far as we know, cannot be repeated with sufficient assurance. Other systems have come into the view of government agencies, and then disappear from sight.

A knowing public would ask, Why are these not included in the discussion?" – Simple. Because the utilities know they are for real, and only a few years down the road. The problem for utilities is not the price of energy today, but how to dump their fixed assets (hydro plants, transmission lines, etc.) onto the public. These “valuable” assets will have zero value down the road, because all new systems are stand-alone units which don't need fixed plant and transmission lines. If the public is aware of the dilemma of the utilities, the ability to dump assets onto the State is heavily reduced.

The Republican-Democrat debate over “caps” is a diversion. The relevant question carefully avoided is, how long will it take to get these new systems into production?

Another example is Monsanto Corporation development of genetic engineering and predator seed, a barely-concealed effort for world domination of agriculture.

President George Bush, Jr. , a Bonesman, appoints a Monsanto vice president, Dr. Virginia Weldon, as Director of Food and Drug Administration, which has the power to block labeling of genetically-engineered foods, and pass on other corporate control efforts.

Just before this, in New Technology, we had the 1989 dramatic announcement of “cold fusion.” When this announcement was made public, President George Bush (also a Bonesman) called establishment scientist the late physicist Seagrum into his office and gave instructions.

We don't know what was said, but we know what happened. Cold fusion, a valid process for free energy, as was subsequently revealed, was slandered and harassed by the establishment, no doubt fearful of what free energy would do to the oil industry.

What is to be Done?

If the voting public was even vaguely aware of this rampant and concealed scenario, it could, and possibly would force change. However, this is not a likely possibility. Most people are “go-along” types, with limited personal objectives and a high threshold for official misdeeds.

What has taken over a century to establish cannot be changed in a few years. The initial question is

education. To eliminate the Hegelian system that stifles individual initiative and trains children to become mindless zombies, serving the State.

We need a lot less propaganda for “education” and a more individual creative search for learning. Instead of more money for education, we need to allocate a lot less. The existing system of education is little more than a conditioning mechanism. It has little to do with education in the true sense, and a lot to do with control of the individual.

It is more likely that time, rather than the voting booth, will erode the secret power of this Yale group, Nothing this outrageous can survive forever.

Antony Sutton

America's Secret Establishment: An Introduction to the Order of Skull & Bones by Antony C. Sutton

Publisher's Foreword:

Antony Sutton was a giant among men. His integrity cost him dearly: his vocation, his income, his family ... maybe even his life.

After coming across this book in 1988, I searched out and read all that I could find of Professor Sutton's works. One reason: his books helped me to understand what my father had told me in 1969, ten years after he had quit a high-level job at the CIA — because he wouldn't go along with their corrupt practices. Dad had

mentioned “secret societies,” drug trafficking, and that the fight-to-the-death struggle between Communism and Capitalism was a “managed” conflict. Almost twenty, I was newly married with a baby, and had no idea what my father was talking about. America's Secret Establishment contributed greatly to my garnering a different thesis of how the world actually works, versus what was presented to me by the media and schooling.

Kris Millegan
March 3, 2009

ANTONY SUTTON was a research Fellow at the Hoover Institution, Stanford University, from 1968 to 1973. He is a former economics professor at California State University Los Angeles. He was born in London in 1925 and educated at the universities of London, Gottingen and California with a D.Sc. degree from University of Southampton, England.

Authors Preface:
America's Secret Establishment

After 16 books and 25 years in basic research I thought I'd heard it all ... the world was a confused mess, probably beyond understanding and certainly beyond salvation – and there was little 'I could do about it.

Back in 1968 my Western Technology and Soviet Economic Development was published by the Hoover Institution at Stanford University. In three substantial volumes I detailed how the West had built the Soviet Union. However, the work generated a seemingly insoluble puzzle – why have we done this? Why did we build the Soviet Union, while we also transferred technology to Hitler’s Germany? Why does Washington want to conceal these facts? Why have we boosted Soviet military power? And simultaneously boosted our own?

In subsequent books, the Wall Street series, I added more questions – but no answers. I had more or less arrived at the conclusion that there was no rational answer that could be proven.

Then a year or so ago I received an eight-inch batch of documents – nothing less than the membership lists of an American secret society. Glancing through the sheets it was more than obvious – this was no ordinary group. The names spelled Power, with a capital P. As I probed each individual a pattern emerged ... and a formerly fuzzy world became crystal clear.

The book you will read here is a combined version of a series reporting on this research. Each volume builds on the previous volume in a logical step-by-step process.

These volumes will explain why the West built the Soviets and Hitler; why we go to war, to lose; why Wall Street loves Marxists and Nazis; why the kids can’t read; why the Churches have become propaganda founts; why historical facts are suppressed, why politicians lie and a hundred other whys.

This series is infinitely more important than the original Western Technology series on technological transfers. If I have a magnum opus, this is it.

ANTONY C. SUTTON
