Antony C. Sutton: The Hegelian Dialectic by Congress:Member:Leslie R. Pastor (/congress:member:leslie-r-pastor)

Antony C. Sutton informed me regarding the Hegelian Dialectic, letting me know that he selected Marlene (M de P) because of her understanding of the Hegelian Dialectic to be his personal confidant/gatekeeper. In fact it was she who allowed me to speak with Dr. Antony C. Sutton, for the first time, after my return from Regent University and my meeting with Dr. Herb Titus, the founding Dean of Regent University Law School. It was in Dr. Titus' office that I revealed my research regarding my own significant (primary source) discovery, of the 'control' paradigm, which I subsequently shared with Dr. Sutton himself on April 26th, 1999.

Site:LRP:Antony C. Sutton D.Sc. (/site:lrp:antony-c-sutton-d-sc-) came to my attention when I decided to no longer go along to get along with my academic professors. I began to ask penetrating questions concerning 'revolutions,' specifically their cause, funding and fulfillment/outcome. My European education apprised me of significant anomalies pertaining to how American students were taught within the United States. Realizing that I would never acquire answers to my questions from my professors, I searched the Library stacks at Seton Hall University, where I found the answers I was looking for in 1972, decades before the 'knowledge revolution.' It was incumbent upon me, to perform my own due diligence, finding several books written by Antony C. Sutton (Hoover Institution, 1968 1971), I discovered, that we had been lied to, and, that the truth was stranger than fiction.

The discovery of Antony C. Sutton's Site:LRP:Western Technology & Soviet Economic Development (/site:lrp:western-technology-soviet-economic-development) books in the University Libraries at Seton Hall University and SUNY Stony Brook were an eye-opener for me. Wars and Conflicts were being induced and controlled by hidden covert means within and by Western Nations such as the US, Germany and other European countries. It made no sense, being totally irrational in appearance. Why? Why create enemies? Why build them up? Why create the ability to foment conflict? It was not until I read Sutton's books, that I became aware of a magnificent subterfuge that remained hidden behind the scenes right under the noses of the freest nation on Earth. Now for the first time you can read all about it on-line:

'Western Technology and Soviet Economic Development (1917-1965)' <http://mailstar.net/sutton.html> (<http://mailstar.net/sutton.html>)

<http://archive.org/details/Sutton--Western-Technology-1917-1930> [1]

<http://archive.org/details/Sutton--Western-Technology-1930-1945> [2]

<http://archive.org/details/Sutton--Western-Technology-1945-1965> [3]

His discovery provoked further research: Who? How? And Why? These questions produced further revelations, and more unanswered questions. Dr. Sutton demonstrated that Wall Street itself was behind all of the activity. The following on-line books explain:

'Wall Street & FDR (<http://www.reformation.org/wall-st-fdr.html>)'

'Wall Street & Rise of Hitler (http://reformed-theology.org/html/books/wall_street/index.html)'

'Wall Street & The Bolshevik Revolution (http://www.reformed-theology.org/html/books/bolshevik_revolution/)'

'Wall Street & The Best Enemy Money Can Buy (http://reformed-theology.org/html/books/best_enemy/)'

Dr. Sutton attempted to share his findings with the US Congress, academia and in the open community, giving speeches and lectures, essentially sounding a clarion call providing awareness of the anomaly discovered:

But it was not until he received an unsolicited membership list, from an unsolicited source, namely the actual original membership list of the Russell Trust Association (RTA Inc.), now known as Skull & Bones at Yale University, that he was finally able to fully comprehend, and thus receive the desired answers to his formerly unresolved questions. He now knew that there was a hidden secret agenda, which he finally wrote about in a book named: 'America's Secret

Realizing that Antony C. Sutton had been revealing their tactics, Site:LRP:The Control Paradigm (/site:lrp:the-control-paradigm) instituted a new direction and a new methodology and framework. Still incorporating the technique of the Hegelian Dialectic, they set their sights on China. The Chinese were given access to the American financial system, its debt structure, and the American markets via NAFTA and Chinese labor, all in a massive effort to destroy the United States by wiping out the American middle class. A foreign national funded by private interests became the President of the United States. With funding guaranteed by international banking institutions, the stage was set for the final destruction of the United States. America's aging population and unbridled influx of undocumented alien penetration of the borders of the United States guaranteed the final solution.

Managed and controlled conflict has been the architecture of "Change" personified finally by the leadership of the Establishment Elite, as is demonstrated by the political and social groups framing the fundamental tactics outlined by the Hegelian Dialecticians. "Change" can only come about via a 'managed and controlled' conflict perpetrated by internal and outside forces determined to subjugate an uninformed population into total submission of subservience and subjugation. The people of the United States will require 'knowledge, skills and abilities' to escape the final solution of their 'two hundred year' reign as a free nation. A strong recommendation for prayer and fasting regarding this subject-matter (control) is warranted. "The Fear of the Lord is the beginning of wisdom." For wisdom is needed to traverse the mind fields, as well as the minefields that that will test the American will to survive the outcome unscathed. Most American politicians have wisely decided not to directly challenge the obvious disparity that is befalling the American continent. "Except the Lord build the House, they labor in vain that build it." "A House divided against itself cannot stand." Awareness and proper actions, incorporating the appropriate protocol is necessary to avoid the 'conflict' matrix.

The American people, conservative in their traditions, beliefs and historical backgrounds, reacted openly and positively with regard to the deliberate assault upon their economic and political freedoms. Perhaps not realizing that they have been victims to a joint effort by the Hegelian Dialecticians and foreign interests, they reacted to the result and not the cause of their problems. Both the Russell Trust Association and the Domestic Socialists conjointly, conspired to foment a tactical outcome that would enable a fixed and smooth transition into a conspired New World Order.

Just as the media was bought up and controlled by J. Pierpont Morgan during the early 1900s in order to prevent the knowledge of Nikola Tesla's primary energy source from reaching the American people, (non-fuel based and advanced energy systems based on radiant/negative energy), the media has been co-opted once again, preventing the people of the United States from publically hearing about the real agenda of the present Obama Administration. The predominant liberal-left media (now largely ignored by conservative Americans) euphemistically called lame-stream, has repeatedly failed to report on many of the incoherent actions, not to mention the many falsehoods emanating from the same administration.

The mechanism that enabled the control paradigm to accomplish its agenda was the "money trust" and their private agenda, which ultimately morphed into the Fed, via their determined and deliberate use of the fiat monetary system. Fiat money successfully enabled the powerbrokers to fulfill their goals, inflation/deflation and depression/recession economic cycles. The monetary system was never intended to provide stability (measure of value, store of value, medium of exchange), rather it enabled, the fulfillment of the secret agenda, to finance global wars, economic takeovers and the curtailment of freedom (price stability, uniform markets and a standard of living common to all). The monetary system merely benefited 'insiders' and those who became the primary beneficiaries of the largesse of government spending policies such as the military industrial complex and Wall Street (the banking fraternity and the international banking structure) as envisioned by Carroll Quigley.

Aaron Russo among many others discovered that the mechanism of control is to ultimately eliminate 'money' as portable paper currency (debt instruments, commercial paper, etc.) establishing a permanent electronic 'medium of exchange' to be governed by unseen private oligarchs, who will control each and every individual (via implanted RFID "chips" and extreme regulation) as to their ability to come, go, be, think and do, as they would desire and wish within a severely restricted and curtailed society.

The Hegelian "vehicle" that the control paradigm has used within our modern timeframe as the ultimate "Dialectic" has been and remains still, is between the political right and the political left as personified by the two (2) Bush Administrations and the Obama Administration, both of whom have been nurtured and financed by the same base element, the money trust and secret societies, updated as the Russell Trust Association, and George Soros, both relatively unknown, as to agenda and goals, notwithstanding the revelations provided by Antony C. Sutton.

And one other final point in closing. The conspiracy between The Fourth Estate, The Financial Politicians and the American Unions is deafening as to their deliberate actions, co-jointly, regarding, misdirection, obfuscation and determination to achieve their goals in establishing the New World Order. And unless, the American people wake up, take complete charge of this situation, they will succumb and be destroyed according to the jurisdiction of Site:LRP:The Control Paradigm - East (/site:lrp:the-control-paradigm---east) (Control via Extermination)

Until the American people fully understand the scope and grandeur of the deception that is inherent but hidden from them as revealed by Site:LRP:Antony C. Sutton D.Sc. (/site:lrp:antony-c-sutton-d-sc-) they will never be free of their dilemma. Understanding the inherent evil and insidious nature of 'managed and controlled (Hegelian Dialectic) conflict' will enable them to provide the proper and appropriate direction they need to solve their dilemma prayerfully and non-violently. The dilemma I might add is not just within this country but is a global dilemma. One that needs to be resolved spiritually as was demonstrated by Jesus of Nazareth, when he fasted and prayed for forty days and forty nights in the desert (wilderness) more than two thousand years ago in the land of Israel. Jesus of Nazareth was offered all the kingdoms of the Earth by Lucifer himself, if Jesus would but fall down and worship him. Jesus refused, but apparently, many did not and they became partners with evil in order to rule in Lucifer's kingdom of the Earth. Jesus sent his disciples throughout the Earth to preserve it, until his return. To seek and to save the lost, to educate (Universities), heal and spread the gospel of peace, hope and love, but more importantly to everyone (whosoever will) willing to accept Jesus promise of eternal life.

<http://www.youtube.com/watch?v=IFfdOkwyuL0&feature=related> http://www.youtube.com/watch?v=05R_Ehwt7FI (http://www.youtube.com/watch?v=05R_Ehwt7FI)

The Christian base established Site:LRP:Education (/site:lrp:education) as its primary goal. Christian Educators founded the Ivy League School System within the United States, only to be infiltrated, subverted and taken over by the liberal left, (socialists, communists who euphemistically called themselves progressives). Having been given an opportunity to help found Regent University in Virginia Beach, Virginia, I know first-hand that the Christian base allows the greatest opportunity to those who endeavor to spread the gospel of Jesus Christ. The classroom of yesterday has been expanded into the classroom of the world-wide-web. The classroom is everywhere it is ubiquitous, potentially reaching everyone throughout the Earth. Students can participate on-line within a 'virtual' classroom. Literally millions of 'students' can part-take in on-line lectures, studying at-home, without having to travel to a physical campus. The opportunities today are greater than ever before. We can reach the entire world in one generation. Technology that provides that capability already exists and can be used immediately.
