My name is

Memory Verse

"Thou shalt not kill."

Exodus 20:13

Objectives

1. I can add and subtract numbers to thousands.
2. I can learn the multiples for 2, 3, 5, and 10.
3. I can learn the meaning of 'quarter after' and 'quarter til'.
4. I can learn to give sensible answers.
5. I can learn to measure perimeter and area.
6. I can learn about equivalent fractions.
7. I can add and subtract money using dollar and cent signs.
8. I can learn the operation sign for multiplication.
9. I can learn multiplication facts for 2.
10. I can learn about line graphs.
11. I can learn about line segments and angles.

I. Part One

1.1 **Name each part of the addition problem.**

38 _____

46 _____

+ 59 _____

143 _____

1.2 **Add.**

3 6 + 8	24 36 + 52	74 21 + 60	43 38 + 52	321 + 248
473 + 209	280 + 450	547 + 363	285 + 696	342 673 + 428

We can add numbers to the thousands' place without carrying.

3,625 Add ones' place. 5 + 1 = 6 Add tens' place. 2 + 7 = 9
2,071 Add hundreds' place. 6 + 0 = 6 Add thousands' place. 3 + 2 = 5
5,696 Write the comma to separate thousands from hundreds.

1.3 **Add.**

4,290 + 3,506	2,357 + 6,232	5,114 + 4,603	1,624 + 3,053

We can add numbers to the thousands' place with carrying.

111	Add ones.	6 + 6 = 12	Write the 2 and carry 1 ten.
4,736	Add tens.	1 + 3 + 9 = 13	Write the 3 and carry 1 hundred.
2,496	Add hundreds.	1 + 7 + 4 = 12	Write the 2 and carry 1 thousand.
7,232	Add thousands.	1 + 4 + 2 = 7	Write the comma in the sum.

We do not always need to carry each place.

1 1	Add ones.	5 + 8 = 13	Write the 3 and carry 1 ten.
3,315	Add tens.	1 + 1 + 3 = 5	Write the 5.
4,738	Add hundreds.	3 + 7 = 10	Write the 0 and carry 1 thousand.
8,053	Add thousands.	1 + 3 + 4 = 8	Write the comma in the sum.

1.4 Add.

2,765 + 3,051	4,253 + 2,807	6,095 + 2,538	5,226 + 3,485
7,364 + 1,859	6,773 + 2,541	3,440 + 2,359	1,057 + 2,063

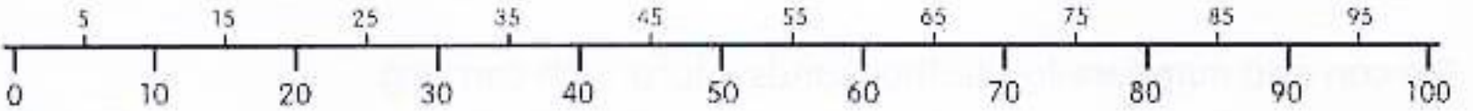
1.5 Write the numbers before and after.

_____ 3,860	_____ 5,996	_____ 2,406
5,291 _____	6,399 _____	7,999 _____

1.6 Write the numbers in number order.

Remember, to arrange numbers in number order, we begin at the left (thousands) and then compare hundreds, tens, and ones.

8,654	8,645	8,456	8,564	6,845	6,458
_____	_____	_____	_____	_____	_____



When we count by 2's, 3's, 5's, and 10's,
we are learning about multiplication.

When we count by 2's, 3's, 5's, and 10's,
we are saying the multiples of 2, 3, 5, and 10.

1.7 Count by 2's, 3's, 5's, and 10's. Write the multiples.

2 to 20 ____ ____ ____ ____ ____ ____ ____ ____ ____ ____

3 to 30 ____ ____ ____ ____ ____ ____ ____ ____ ____ ____

5 to 50 ____ ____ ____ ____ ____ ____ ____ ____ ____ ____

10 to 100 ____ ____ ____ ____ ____ ____ ____ ____ ____ ____

1.8 Circle the correct numbers.

6 is a multiple of (2, 3, 5, 10).

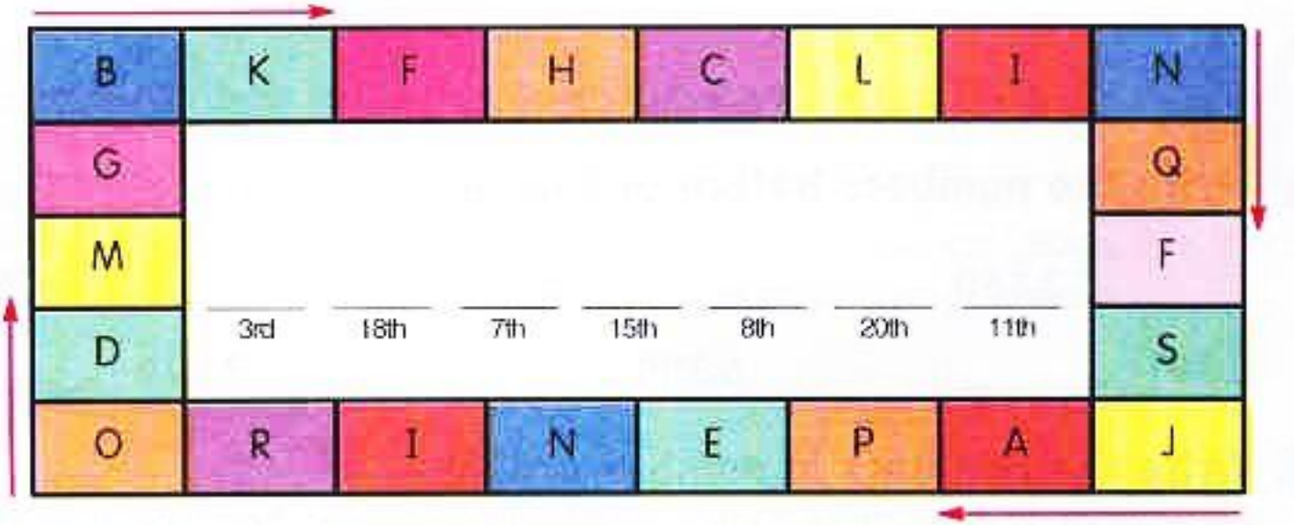
10 is a multiple of (2, 3, 5, 10).

15 is a multiple of (2, 3, 5, 10).

30 is a multiple of (2, 3, 5, 10).

The letters start with B and go around the chart to G.
Read the number order of the letters (B is first, K is second, F is third, ...).

1.9 Find the letter on the chart and write it on the line.



Draw a picture
of your answer.

We can find patterns in numbers.
Learning patterns helps us understand numbers.

1.10 Add. Write E (even) or (O) odd on the line below each number.

12 + 26 = ____ 11 + 15 = ____ 16 + 13 = ____ 21 + 32 = ____

___ + ___ = ____ ___ + ___ = ____ ___ + ___ = ____ ___ + ___ = ____

When we add two even numbers or two odd numbers,
the answer is _____.

When we add an even and odd number together,
the answer is _____.

1.11 Add. Write E (even) or O (odd) on the line below each number.
Did your answer follow the pattern? Write 'yes' or 'no'.

(yes, no) (yes, no)

35 + 19 = ____ 44 + 38 = ____

___ + ___ = ____ _____ ___ + ___ = ____ _____

27 + 52 = ____ 62 + 45 = ____

___ + ___ = ____ _____ ___ + ___ = ____ _____

1.12 Read the sentence. Write the answer in numbers.

If we buy 3 dozen eggs, we have bought _____ eggs.

If we bake 4 dozen cookies, we have baked _____ cookies.

If there are a dozen inches in one foot,
we can say there are _____ inches in two feet.

If there are a dozen hours from midnight
to noon, we can say there are _____ hours in the morning.

1.13 Write the time on the clocks.

____ : ____ ____ : ____ ____ : ____ ____ : ____

1.14 Write the answers.

AM, PM, second, dial, hour, digital, minute

The first and second clocks above are _____ clocks.

The third and fourth clocks are _____ clocks.

The long hand on the clock is the _____ hand.

The short hand on the clock the _____ hand.

The hand that goes around once every minute is the _____ hand.

The time from midnight to noon is _____.

The time from noon to midnight is _____.

1.15 Write the standard measurements for time.

____ seconds = 1 minute ____ minutes = 1 hour ____ hours = 1 day

____ days = 1 month ____ months = 1 year ____ days = 1 year

We may use the expressions
'quarter after' or 'quarter til' to tell time.
Look at the clock in the illustration.
The clock has been divided into four parts.
Each part is one quarter of the whole.
How many minutes in one quarter? _____

If we say it is 'quarter after' 3, it is 3:15. If we way it is 'quarter til' 4, it is 3:45.

If we say it is 'quarter after' 6, it is _____.

If we say it is 'quarter til' 9, it is _____.

Self Test 1

1.01 Add. (2 points each)

4,368 + 2,305	5,447 + 2,396	2,853 + 1,678	3,435 + 2,791

1.02 Write the multiples of ... (3 points each)

2. _____, _____, _____, _____, _____, _____, _____, _____, _____, _____

3. _____, _____, _____, _____, _____, _____, _____, _____, _____, _____

1.03 Add. Write E (even) or O (odd) on the line below each number.
Write 'yes' or 'no' for pattern.

(yes, no)		(yes, no)	
31 + 27 = _____		55 + 32 = _____	
____ + ____ = _____	_____	____ + ____ = _____	_____

1.04 Read the sentence. Write the answer.

When we add ...

two even numbers or two odd numbers, the answer is _____.

an even and odd number together, the answer is _____.

If we buy a dozen eggs, we have bought _____ eggs.

1.05 Write the answers. AM, PM, second, dial, hour, digital, minute

The short hand on the clock is the _____ hand.

The hand that goes around once every minute is the _____ hand.

1.06 Write the standard measurements for time.

_____ seconds = 1 minute _____ minutes = 1 hour _____ hours = 1 day

_____ days = 1 month _____ months = 1 year _____ days = 1 year

28/35

Teacher Check _____
Initial Date

II. Part Two

2.1 **Name each part of the subtraction problem.**

$$\begin{array}{r} 573 \\ -\ 251 \\ \hline 322 \end{array}$$

_____

_____

_____

2.2 **Subtract.**

56 − 42	92 − 76	85 − 59	763 − 251	490 − 367
863 − 291	532 − 209	728 − 456	634 − 497	924 − 638

We can subtract numbers to the thousands' place without borrowing.

$$\begin{array}{r} 7{,}663 \\ -\ 5{,}031 \\ \hline 2{,}632 \end{array}$$

Subtract ones' place. $3 - 1 = 2$ Subtract tens' place. $6 - 3 = 3$
Subtract hundreds' place. $6 - 0 = 6$ Subtract thousands' place. $7 - 5 = 2$
Write the comma to separate thousands from hundreds.

2.3 **Subtract.**

6,357 − 4,235	7,936 − 2,034	8,875 − 6,253	9,051 − 4,030

It is important to look at our answers when we have finished a problem.
Do we have a sensible answer? Does the answer seem to be reasonable?
We always want our answers to be correct.

You have learned rules for even and odd numbers.
You have learned rules for rounding numbers.
These rules help you to know that you have a sensible answer.

2.4 *Do not read the sentences.* Close your LIFEPAC. Select ten numbers between 1 and 100. Write them on a piece of paper. Open the LIFEPAC. **Write the numbers from your list on the blank lines below.**

I ate _____ bowls of cereal for breakfast this morning.

I brushed all of my _____ teeth.

I took my dog for a walk. We walked _____ blocks.

I finished _____ pages in my math LIFEPAC during math class.

When I went out to play, I wore _____ sweaters to keep me warm.

My friend and I played basketball with _____ balls.

After playing, we ate _____ cookies and drank _____ glasses of milk.

We watched our favorite television show for _____ hours.

That night I was so tired, I slept _____ hours.

Read the sentences. How many sensible answers did you have?_____

2.5 Add 8 to each number.

5 _____ 8 _____ 3 _____ 0 _____ 9 _____ 2 _____

2.6 Subtract 7 from each number.

13 _____ 9 _____ 11 _____ 7 _____ 15 _____ 10 _____

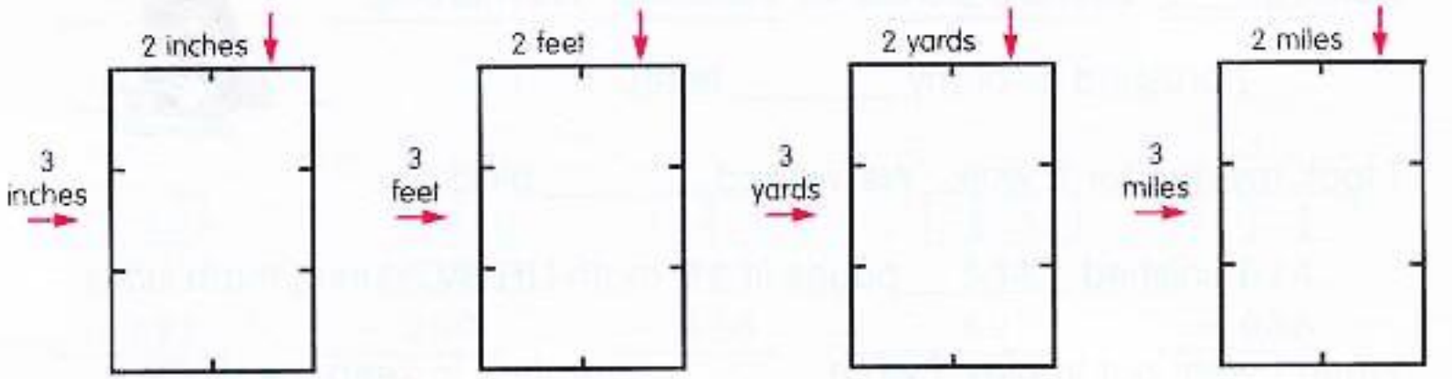
2.7 Write the standard measurements for length.

_____ inches = 1 foot _____ inches = 1 yard _____ feet = 1 yard

You should learn that 5,280 feet = 1 mile.

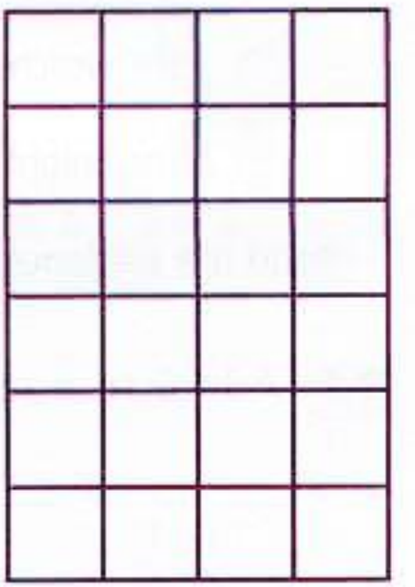
Perimeter is the distance around the outside of a plane shape.
Perimeter measures length.
Perimeter is measured in linear measurements.

2.8 Each one of the rectangles below shows a different measurer. **Find the perimeter measurement of each one.** Label answers.



_____ _____ _____ _____

Area measures surface.
Area is measured in square measurements.
Look at the rectangle.
Each box represents one square inch.



2.9 Write the answer.

How many linear inches are there around the outside of the rectangle? _____

The perimeter is _____ linear inches.

How many square inches in the rectangle? _____

The area is _____ square inches.

You will need
a large piece of paper, a ruler, scissors,
and a large table.

2.10 Draw a square on the large piece of paper.

Make the square 12 inches (1 foot) on each side.
Draw a line at every inch both across and up and down.
Your drawing will have squares like the drawing on page 10.
Cut out the square foot.
Write a number in each square until every square is filled.

Write how many. _____ square inches = 1 square foot

The standard measurements for square measurement are ...

144 square inches = 1 square foot 9 square feet = 1 square yard

2.11 Place the square foot that you have cut out on a flat table.

Place a marker at the corner where you are beginning.
Measure the surface of the table by moving the square foot until you have measured all of the top of the table.

Write the measurement.
Label your answer correctly. _____

2.12 Find some places to measure using the square foot.

Write the name of what you are measuring.
Write the measurement. Label your answer correctly.

_____ = _____

_____ = _____

_____ = _____

_____ = _____

_____ = _____

2.13 Write the names of the fraction on the lines.

fraction bar	numerator	denominator
_____	7	_____
	8	_____

2.14 Add or subtract. Follow the steps. Draw the fraction bar. Write the denominator. Add or subtract the numerator.

$$\begin{array}{r} \frac{3}{5} \\ +\ \frac{2}{5} \\ \hline \end{array} \qquad \begin{array}{r} \frac{4}{9} \\ +\ \frac{3}{9} \\ \hline \end{array} \qquad \begin{array}{r} \frac{5}{16} \\ +\ \frac{7}{16} \\ \hline \end{array} \qquad \begin{array}{r} \frac{6}{7} \\ -\ \frac{3}{7} \\ \hline \end{array} \qquad \begin{array}{r} \frac{5}{8} \\ -\ \frac{1}{8} \\ \hline \end{array} \qquad \begin{array}{r} \frac{9}{16} \\ -\ \frac{4}{16} \\ \hline \end{array}$$

We can add and subtract fractions written as horizontal problems. We rewrite the problem and then follow the steps.

$\frac{2}{7} + \frac{4}{7} =$ _____

$$\begin{array}{r} \frac{2}{7} \\ +\ \frac{4}{7} \\ \hline \frac{6}{7} \end{array}$$

$\frac{9}{12} - \frac{5}{12} =$ _____

$$\begin{array}{r} \frac{9}{12} \\ -\ \frac{5}{12} \\ \hline \frac{4}{12} \end{array}$$

2.15 Rewrite the horizontal problems. Add or subtract.

$\frac{3}{8} + \frac{4}{8} =$ _____. $\frac{2}{9} + \frac{3}{9} =$ _____. $\frac{6}{10} - \frac{2}{10} =$ _____. $\frac{9}{15} - \frac{3}{15} =$ _____.

2.16 Think the answer. Write the answer.

$3 + 4 + 7 - 6 + 2 - 5 =$ _____. $9 - 6 + 2 - 0 + 3 + 8 =$ _____.

$12 - 8 + 6 - 4 + 9 - 3 =$ _____. $15 + 3 - 9 + 4 + 2 - 6 =$ _____.

2.17 Write how many. Write the value.

283 = _____ thousands _____ hundreds _____ tens _____ ones

= _____ + _____ + _____ + _____

2,904 = _____ thousands _____ hundreds _____ tens _____ ones

= _____ + _____ + _____ + _____

4,006 = _____ thousands _____ hundreds _____ tens _____ ones

= _____ + _____ + _____ + _____

84 = _____ thousands _____ hundreds _____ tens _____ ones

= _____ + _____ + _____ + _____

2.18 Write six different numbers. 3, 5, 1, 7

Write the value of the 7 below each number. 7, 70, 700, 7,000

_____ _____ _____ _____ _____ _____

_____ _____ _____ _____ _____ _____

2.19 Write the smallest number and the largest number.

4, 7, 0, 8 _____ _____ 0, 6, 7, 5 _____ _____

6, 0, 3, 1 _____ _____ 9, 2, 6, 0 _____ _____

Which digit was not used when you wrote the smallest number? _____

Why is zero written in a number? _____

2.20 Circle the correct operation signs.

6 + 3 (=, ≠) 2 + 7 5 + 6 (>, <) 8 + 4 17 − 9 (=, ≠) 15 − 8

1,399 (>, <) 1,299 3 + 0 (=, ≠) 3 − 0 2,656 (>, <) 2,246

Self Test 2

2.01 Subtract.

43	782	427	544	4,675
− 29	− 536	− 243	− 378	− 2,341

2.02 Write the standard measurements.

_____ inches = 1 foot

_____ inches = 1 yard

_____ feet = 1 yard

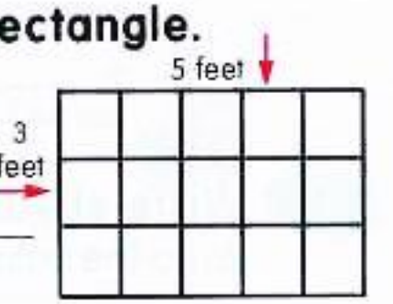
_____ feet = 1 mile

_____ square inches = 1 square foot

_____ square feet = 1 square yard

2.03 Write the perimeter measurement of the rectangle.

Write the area measurement.
You must label your answers correctly.



perimeter _____ area _____

2.04 Rewrite the fraction problems. Add or subtract.

$\frac{2}{7} + \frac{3}{7} =$ _____. $\frac{5}{12} + \frac{6}{12} =$ _____. $\frac{8}{10} - \frac{4}{10} =$ _____. $\frac{9}{16} - \frac{3}{16} =$ _____.

2.05 Write the smallest number and the largest number.

5, 6, 0, 3 _____ _____ 1, 0, 5, 4 _____ _____

Why is zero written in a number? _____

2.06 Circle the correct operation signs.

7 + 8 (=, ≠) 9 + 5 13 − 6 (>, <) 6 + 4 4,682 (>, <) 4,582

20/25

Teacher Check _____
Initial Date

III. Part Three

3.1 Add.

3 6 + 8	14 27 + 30	476 + 289	687 + 208	328 654 + 791
1,256 + 3,684	4,305 + 5,473	1,509 + 2,483	5,476 + 3,185	4,638 + 3,794
2,543 + 4,261	5,320 + 3,567	4,768 + 2,735	5,639 + 3,253	2,773 + 6,124

3.2 Write numbers in digits. Circle them in the number puzzle.

Three thousand, fifty-seven _____

Six thousand, eight hundred seventeen _____

Two thousand, six hundred twenty-nine _____

Seven thousand, three hundred seven _____

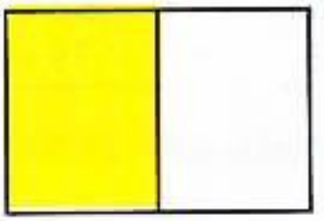
Five thousand, one hundred nine _____

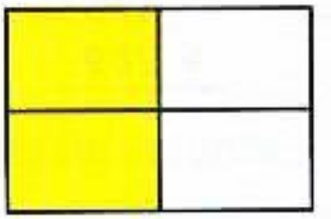
Six thousand, one hundred twenty-one _____

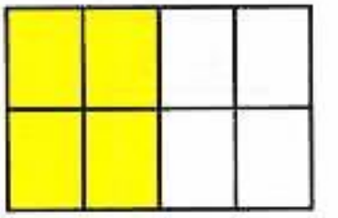
6	3	4	2	7
5	1	0	9	3
7	4	2	5	0
1	6	8	1	7
2	3	9	0	8

The denominator of a fraction tells how many parts in the whole (or set).
The numerator of a fraction tells how many parts we are talking about.

3.3 Write the fraction that describes the yellow part of the box.
Answer the question.







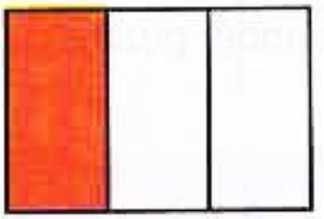
_____ _____ _____

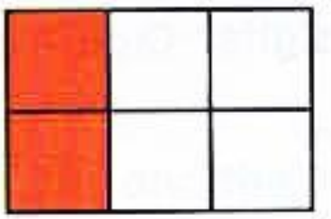
How are the boxes alike?
Each box is the same size. Each yellow part is the same size.
How are the boxes different?
The first box has 2 parts, the second has 4 parts, the third has 8 parts.

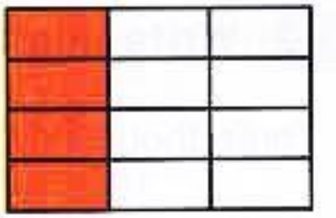
You have written three fractions.
Each fraction describes the same part (the yellow part) of the same box.
Fractions that describe like things are equivalent fractions.

Write the equivalent fractions for the boxes. _____ = _____ = _____

3.4 Write the fraction that describes the orange part of the box. Answer the question.







_____ _____ _____

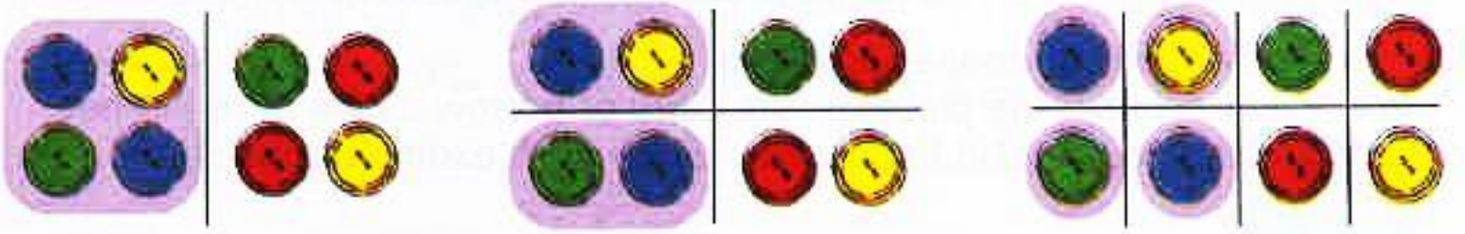
Look at the fractions that you wrote.
You could describe the orange part of the box in three ways.

Each time the denominator changed, the _____ also changed.

_____, _____, and _____ are alike. They are equivalent fractions.

A set of 8 buttons has been divided into 2 parts, 4 parts, and 8 parts.
The number of parts we are talking about are shaded purple.

3.5 Write the fraction that describes the circled part of the set.



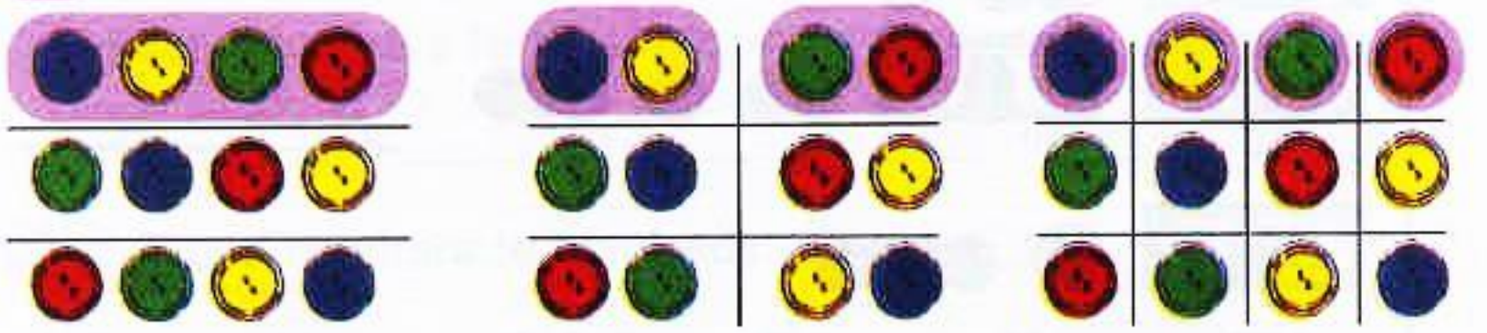
_____ _____ _____

How are the sets alike?
Each set is the same size. Each circled part is the same size.
How are the sets different?
The first set has 2 parts, the second has 4 parts, the third has 8 parts.

You have written three fractions.
Each fraction describes the same part (the circled part) of the same set.
Fractions that describe like things are equivalent fractions.

Write the equivalent fractions for the sets. _____ = _____ = _____

3.6 Write the fraction that describes the circled part of the set.



_____ _____ _____

Look at the fractions that you wrote.
You could describe the circled part of the set in three ways.

Each time the denominator changed, the _____ also changed.

_____, _____, and _____ are alike. They are equivalent fractions.

Money that is less than 100 cents is written using the cent sign (¢) or with the dollar sign and decimal point. 45¢ \$ .45

Money greater than 100 cents is written with the dollar sign and decimal point. \$5.45

We can add or subtract money problems.
We add or subtract the problem. We carry or borrow as we have learned.
We write the sign(s) in the answer. Study each example carefully.

1 48¢ + 37¢ 85¢	1 83¢ + 59¢ \$1.42	1 1 1 \$25.48 + \$36.72 \$62.20	6 14 74¢ − 26¢ 48¢	3 12 \$39.42 − \$29.27 \$10.15	7 15 \$72.85 − \$72.37 \$ .48

3.7 Write money using cent signs or dollar signs and decimal points. Add or subtract. Label answers correctly.

_____

\+ _____

_____

_____

\+ _____

_____

_____

− _____

_____

_____

− _____

_____

Roman numerals correspond to Arabic numerals in this way.

I = 1 V = 5 X = 10 L = 50 C = 100 D = 500 M = 1,000

Fours and nines are the only Roman numerals formed by subtraction.
The Roman numeral is placed before the numeral it is to be subtracted from.

XIV = X + V − I = 10 + 5 − 1 = 14

CXIX = C + X + X − I = 100 + 10 + 10 − 1 = 119

3.8 Write Roman numerals in Arabic numerals.
Follow the example.

LX = _____ = _____ = _____

LVII = _____ = _____ = _____

LIV = _____ = _____ = _____

CXIV = _____ = _____ = _____

DXC = _____ = _____ = _____

MCXV = _____ = _____ = _____

3.9 Round numbers to tens' place.

47 _____ 18 _____ 73 _____ 25 _____ 96 _____ 32 _____

3.10 Round numbers to hundreds' place.

358 _____ 642 _____ 153 _____ 829 _____ 471 _____ 292 _____

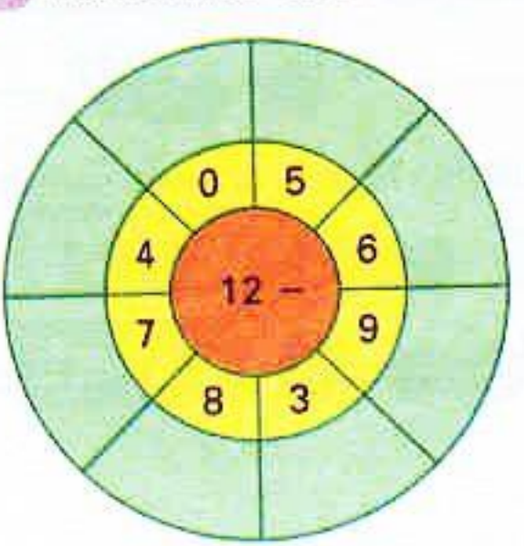
3.11 Round the numbers. Add both problems. Is your answer sensible?

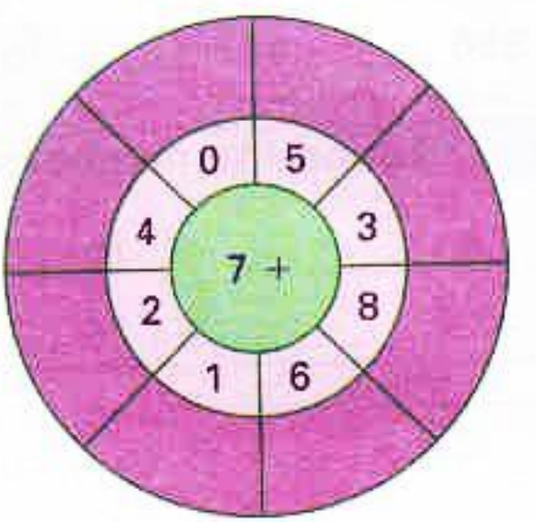
53 _____	42 _____	326 _____	553 _____
+ 29 _____	+ 86 _____	+ 468 _____	+ 347 _____
_____	_____	_____	_____

3.12 Subtract.

76 − 23	97 − 52	438 − 27	692 − 86	723 − 65
456 − 134	527 − 303	685 − 429	763 − 582	951 − 365
4,361 − 1,230	9,755 − 4,024	453 − 237	846 − 581	538 − 249

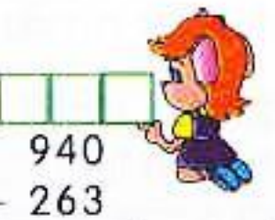
3.13 Write the answers to the facts.





Self Test 3

3.01 **Add or subtract.**



2,086	7,649	940	5,726
+ 3,456	+ 1,583	− 263	− 3,401

3.02 **Write the fraction** for the yellow part of the boxes.

_____ = _____

3.03 **Write the fraction** for the orange part of the sets.

_____ = _____

3.04 **Write money using cent signs or dollar signs and decimal points.** Be sure to put the correct signs in your answer. (3 points)

_____

\+ _____

_____

3.05 **Write Roman numerals in Arabic numerals.**
Write the missing numbers. (6 points)

LXIV = _____ = _____ = _____

MCCX = _____ = _____ = _____

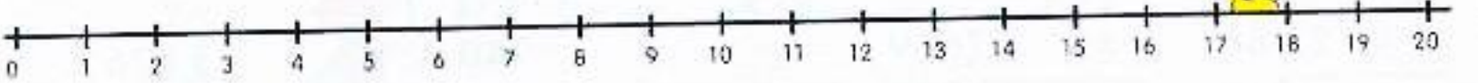
3.06 **Round the numbers**. Add problems. Is your answer sensible?

72	_____	524	_____
+ 35	_____	+ 382	_____

20/25

Teacher Check _____
Initial Date

IV. Part Four



4.1 Write the multiples of 2 to 20.

_____, _____, _____, _____, _____, _____, _____, _____, _____, _____

In mathematics, we like to find 'short cuts'.
We can do things faster and more easily if we use 'short cuts'.

Multiplication is a fast way to do addition.
Look at the pattern of the numbers. Compare the pattern to the multiples.

$2 = 2$	One two is equal to 2.
$2 + 2 = 4$	Two 2's are equal to 4.
$2 + 2 + 2 = 6$	Three 2's are equal to 6.
$2 + 2 + 2 + 2 = 8$	Four 2's are equal to 8.

4.2 Continue the pattern. Write the numbers on the blanks.

Five 2's are equal to _____.

Six 2's are equal to _____.

Seven 2's are equal to _____.

Eight 2's are equal to _____.

Nine 2's are equal to _____.

Ten 2's are equal to _____.

We use the word 'times' and the operation symbol '×' in multiplication.

One times two equals two. $1 \times 2 = 2$

4.3 Write the missing numbers. Write the missing words.

$1 \times 2 =$ _____ $2 \times 2 =$ _____ $3 \times 2 =$ _____ $4 \times 2 =$ _____

$5 \times 2 =$ _____ $6 \times 2 =$ _____ $7 \times 2 =$ _____ $8 \times 2 =$ _____

$9 \times 2 =$ _____ $10 \times 2 =$ _____

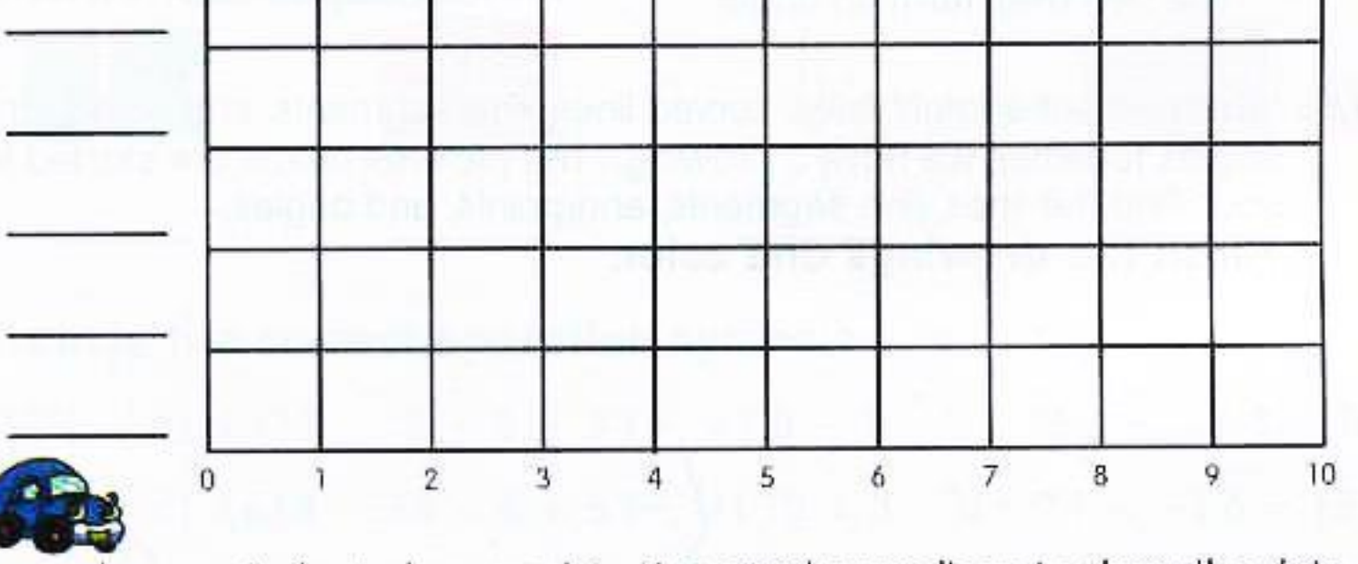
Three times two equals _____. Seven times two equals _____.

Danny and Kenny live on a busy street. They decided to count the cars as they came by. They counted 27 cars in these colors:

7 - blue 5 - green 8 - white 2 - yellow 5 - black

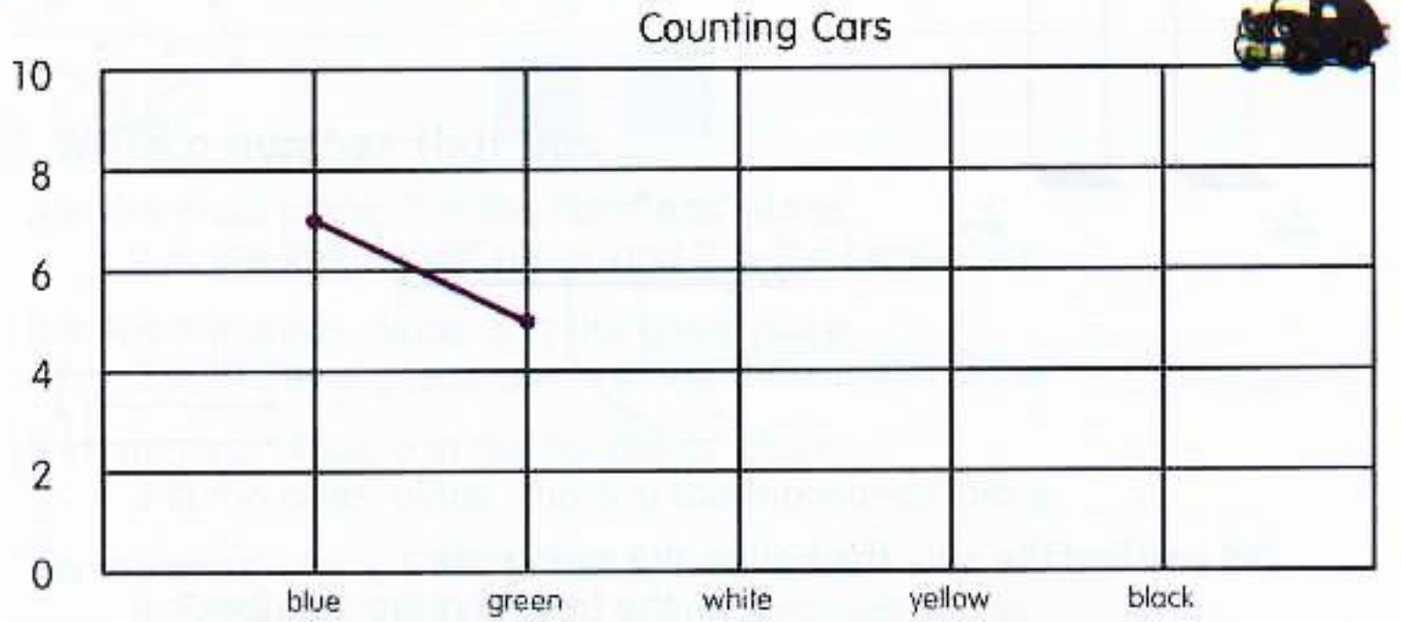
They wanted to tell their friends about the cars that they counted. Danny decided to use a bar graph. Here is the bar graph that he started.

4.4 Complete the graph.



Line graphs are similar to bar graphs. Line graphs use lines to show the data. Kenny decided to use a line graph. Here is the line graph that he started.

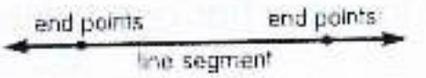
4.5 Complete the graph.



You will need
a ruler and crayons

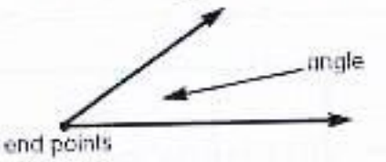
A line may be straight ⟷ or curved ∿.

A part of a line is a line segment.

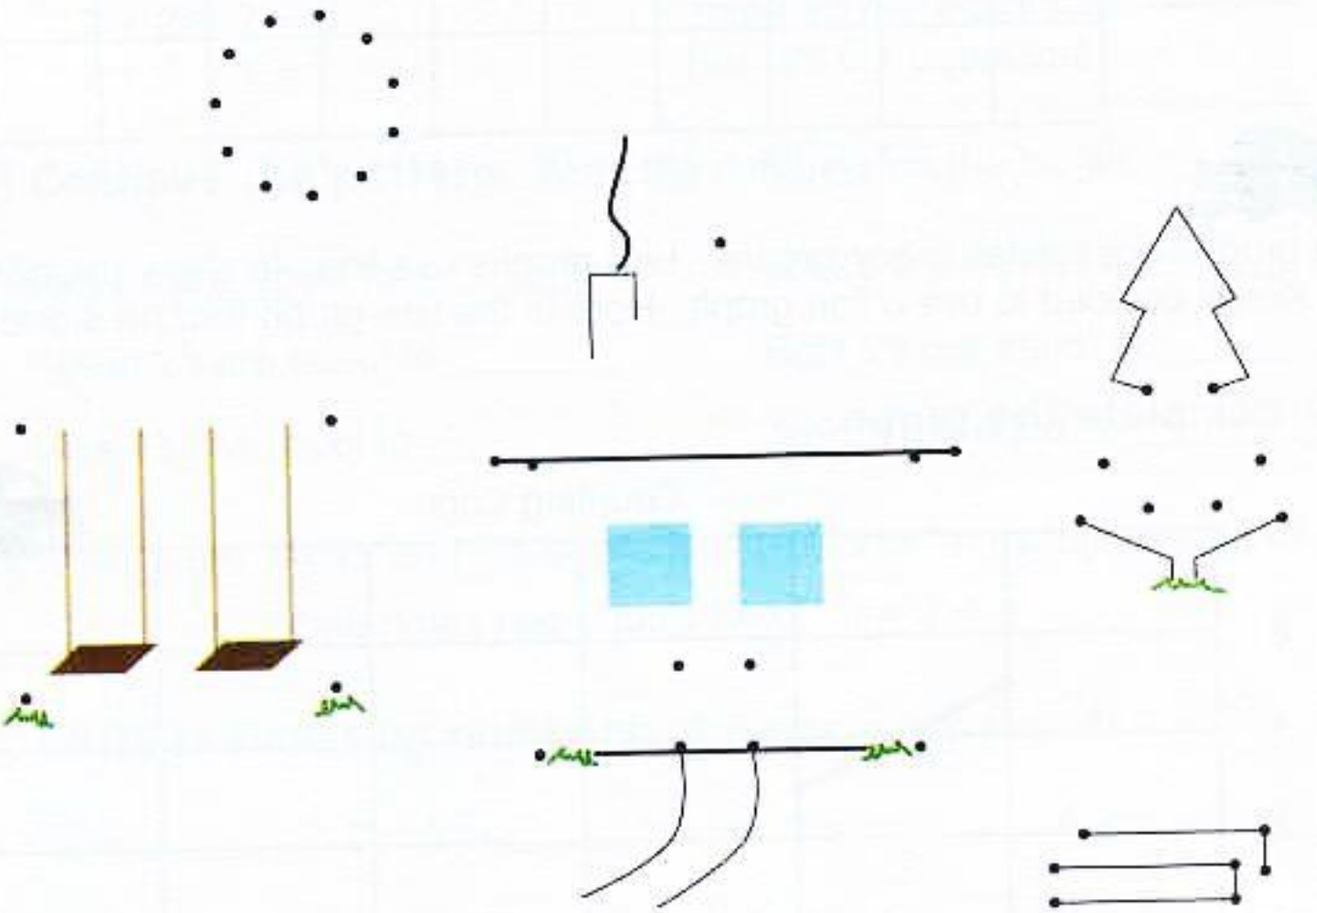


The dots that show the beginning and end of the line segment are end points.

Two lines may meet at one end point.
The two lines form an angle.



4.6 When we put straight lines, curved lines, line segments, end points, and angles together, we have a drawing. The pictures below are started for you. Find the lines, line segments, end points, and angles.
Finish the drawings and color.



Did you find the sun, the house, the swing set,
the tree, and the sandbox? _____

4.7 Write the family of facts.

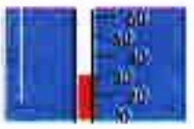
4, 7, 11 _____ _____ _____ _____

6, 8, 14 _____ _____ _____ _____

3, 5, 8 _____ _____ _____ _____

7, 9, 16 _____ _____ _____ _____

4.8 Write the temperatures.



_____ °F _____ °F _____ °F _____ °F

4.9 Circle the correct operation symbols.

5,362 (>, <) 5,373 2 + 5 − 3 (=, ≠) 6 − 1 − 2 16 (+, −) 8 = 8

3,664 (>, <) 3,654 14 − 6 + 5 (=, ≠) 10 + 3 − 0 9 (+, −) 6 = 15

4.10 Write the numbers in number order.

2,654 2,067 3,645 2,670 3,456 5,465

_____ _____ _____ _____ _____ _____

4.11 Write a number that has ...

3 in the one's place, 7 in the hundreds' place,
2 in the thousands' place, and 9 in the tens' place. _____

8 in the hundreds' place, 2 in the ones' place,
5 in the tens' place, and 4 in the thousands' place. _____

7 in the tens' place, 0 in the hundreds' place,
3 in the ones' place, and 6 in the thousands' place. _____

1 in the ones' place, 5 in the thousands' place,
8 in the tens' place, and 4 in the hundreds' place. _____

4.12 Write in digits and operation symbols.

+ − = ≠ > < ×

Three plus five equals two plus six. _____

Thirty minus two equals twenty-eight plus two. _____

Forty-one is less than fifty-six. _____

Fifteen minus eight is not equal to six. _____

Four plus one is equal to six minus one. _____

Eighty-five is greater than sixty-five. _____

Thirty plus two is less than thirty-five. _____

Three times two is equal to six. _____

4.13 Write in words.

56 _____

705 _____

3,055 _____

6 + 4 ≠ 11 _____

76 > 49 _____

4.14 Write the multiples of 2.

_____, _____, _____, _____, _____, _____, _____, _____, _____, _____

4.15 Write the missing numbers.

1 × 2 = _____ 2 × 2 = _____ 3 × 2 = _____ 4 × 2 = _____

5 × 2 = _____ 6 × 2 = _____ 7 × 2 = _____ 8 × 2 = _____

9 × 2 = _____ 10 × 2 = _____

4.16 Add.

36 27 + 52	48 52 + 30	91 58 + 63	281 432 + 329	538 306 + 221
3,264 + 2,705	3,108 + 5,468	3,295 + 4,168	5,250 + 3,684	4,735 + 2,687

4.17 Subtract.

95 − 43	67 − 38	526 − 302	873 − 269	560 − 294
982 − 365	875 − 306	743 − 295	624 − 256	720 − 386
632 − 481	936 − 572	435 − 156	5,834 − 2,601	2,746 − 1,345

Self Test 4

4.01 Write the multiples of 2.

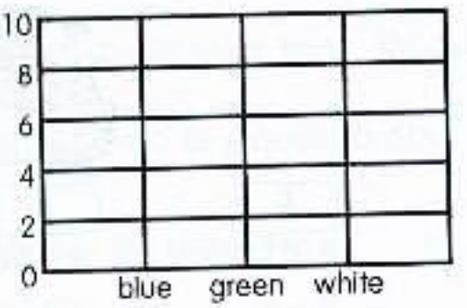
$1 \times 2 =$ _____ $2 \times 2 =$ _____ $3 \times 2 =$ _____ $4 \times 2 =$ _____

$5 \times 2 =$ _____ $6 \times 2 =$ _____ $7 \times 2 =$ _____ $8 \times 2 =$ _____

$9 \times 2 =$ _____ $10 \times 2 =$ _____

4.02 Complete the line graph.

Show 5 blue cars, 3 green cars, 8 white cars. (3 points)



4.03 Draw an example of ...

a straight line.

a curved line.

a line segment with end points.

an angle.

4.04 Write in digits and operation signs.

Four plus six is not equal to eleven. _____

Ninety-five is greater than seventy-six. _____

4.05 Write the temperature.

_____ °F

4.06 Write a number that has ...

3 in the hundreds' place, 2 in the ones' place, 5 in the tens' place, and 3 in the thousands' place.

_____

4 in the tens' place, 6 in the thousands' place, 0 in the ones' place, and 8 in the hundreds' place.

V. Part Five

5.1 Write addition or subtraction facts.

____	____	____	____	____	____	____	____
8	8	8	8	8	8	8	8

5.2 Write the multiples of 10 from 10 to 100.

____, ____, ____, ____, ____, ____, ____, ____, ____, ____

5.3 Find the sum. The addends are 381 and 265. ____

5.4 Write a fraction.

The denominator is 9 and the numerator is 6. Write the fraction in words. ____ ____

5.5 Carlo had saved $5.76 to spend at the store. He bought two new cars for his collection. One car cost $2.38 and the other car cost $2.19. How much money did Carlo have left after he bought the two cars? ____

5.6 Philip has three dozen marbles. How many marbles is that? ____

5.7 Jamie's father is building a fence around the back yard of their house. When he is finished with the fence, he will plant grass in the yard.

Will Jamie's father build the fence on the (area or perimeter) of the back yard? ____

Will Jamie's father plant grass on the (area or perimeter) of the back yard? ____

5.8 Would you wear your jacket if the outside temperature were ...

45° F? ____ 82° F? ____

5.9 Write the standard measurements for square measure.

____ square inches = 1 square foot ____ square feet = 1 square yard

5.10 Karen and her family were traveling by car to visit her aunt. Her aunt lives 832 miles away. They planned two days for the trip. They travelled 465 miles the first day. How many miles did they need to drive the second day?

_____

5.11 Joseph walks one mile to school. How many linear feet does he walk?

_____

5.12 There are 15 boys standing in line. They are grouped in order by the color of their shirts. There are three colors. The order of the colors is blue, green, and red. What is the color of the shirt for the eleventh boy in line?

_____

5.13 Add fractions.

two-sevenths and four-sevenths

three-fifths and one-fifth

five-tenths and three-tenths

5.14 Subtract fractions.

five-eighths and four-eighths

seven-ninths and five-ninths

four-sixths and three-sixths

5.15 Match the plane shapes.

octagon
triangle
square
hexagon
rectangle
pentagon

5.16 Lisa was reading a library book. The chapter that she was reading was numbered XVIII. Write in Arabic numerals the number of the chapter that Lisa was reading.

_____

5.17 Jackie had erased part of a subtraction problem. She knew the subtrahend was 547 and the difference was 156. Can you help her find the minuend?

_____

5.18 Write the answers.

Even numbers end in _____, _____, _____, _____, and _____.

Odd numbers end in _____, _____, _____, _____, and _____.

Select and write the even and odd numbers.

162 37 1,263 8 9,999 426 700 354 5,441 805

Even _____, _____, _____, _____, _____.

Odd _____, _____, _____, _____, _____.

5.19 Tell the place of the underlined digits.

ones, tens, hundreds, thousands

5<u>4</u> _____ 6<u>7</u>3 _____

3,6<u>8</u>2 _____ 4<u>2</u>0 _____

<u>1</u>06 _____ <u>9</u>,461 _____

5.20 Jenny's family is having pizza for supper. There are six people in Jenny's family. Jenny's mother has asked her to cut the pizza into six pieces. Write a fraction describing the amount of pizza that each person in the family will receive.

_____

5.21 Write in number words.

8,406 _____

5,049 _____

5.22 Write the standard measurements for time.

_____ seconds = 1 minute _____ minutes = 1 hour _____ hours = 1 day

_____ days = 1 month _____ months = 1 year _____ days = 1 year

MAY

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30	31		

5.23 Write the answers.

The standard time measurements that are given on a calendar include ...

_____, _____, _____, and _____.

Arrange the months of the year in order. Number them 1 through 12.

_____ December _____ June _____ August _____ February

_____ September _____ March _____ May _____ January

_____ November _____ July _____ April _____ October

Write the date for the third Tuesday of the month of May.

_____, _____ _____

day month date

5.24 Answer these questions. Use the calendar on page 32.

Are there more even days or odd days on the calendar? _____

What does the number pattern 2, 9, 16, 23, 30 describe? _____

Start at the fifth Thursday of the month. Count backward nine days. What is the date? _____

Melanie started reading a book on the ninth day of the month. She finished it in fifteen days. What day of the week did she finish the book? _____

It is May 22nd. Jason plans on visiting his cousin on the next Friday. What is the date he will visit his cousin? _____

Write a problem. Add the dates of all of the Fridays together.

Show your problem and your answer.

_____

Write a problem. Add the date of the first Wednesday to the date of the second Tuesday. Subtract the date of the first Saturday, and add the date of the second Friday.

Show your problem and your answer.

_____

Write the multiples of 2.

_____, _____, _____, _____, _____, _____, _____, _____, _____, _____

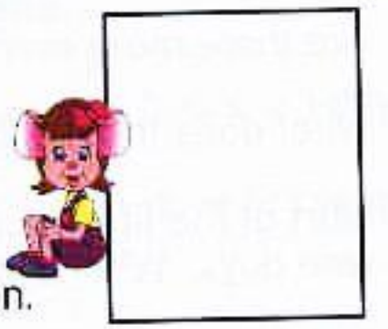
What is the day of the week for the ...

5th multiple? _____ the 8th multiple? _____

Start on the 23rd day of the month. Count forward six days, count backward thirteen days, count forward two days. What day of the week is it? _____

Linda has had three music lessons this month. They have been on May 3rd, May 10th, and May 17th. What date do you think she will have her next music lesson? _____

Self Test 5



5.01 **Write a fraction with a ...** (3 points)

denominator of 8 and a numerator of 6.

with a denominator of 8 and a numerator of 3.

Subtract the second fraction from the first fraction.

5.02 Jennifer had $8.41 cents to spend at the store. She spent $3.59 for drawing paper and $2.76 for a paint set. How much money does she have now? (2 points) _____

5.03 **Answer the question.** _____ square inches = 1 square foot

5.04 **Select and write the even numbers.**

356 49 3,285 4 821 8,492 650 17 5,383 408

_____, _____, _____, _____, _____.

5.05 **Write in number words.**

9,063 _____

5.06 **Write the standard measurements for time.**

_____ seconds = 1 minute _____ minutes = 1 hour _____ hours = 1 day

_____ days = 1 month _____ months = 1 year _____ days = 1 year

5.07 **Write the standard time measurements on a calendar.**

_____, _____, _____, and _____.

5.08 If the second of May is Thursday, what day would it be the fifth of May? _____

5.09 **Describe this pattern of numbers.**

2, 4, 6, 8, 10, 12, 14, 16, 18, 20 _____

MATHEMATICS 306: LIFEPAC TEST

1. Add or subtract.

6,275	5,046	3,648	635	924	8,359
+ 1,309	+ 2,487	+ 3,205	− 248	− 367	− 7,136

2. Write the multiples of 2. (2 points)

_____, _____, _____, _____, _____, _____, _____, _____, _____, _____

3. Add. Write E (even) or O (odd). Write 'yes' or 'no' for pattern. (3 points each)

	(yes, no)		(yes, no)
45 + 31 = _____		20 + 67 = _____	
___ + ___ = _____	_____	___ + ___ = _____	_____

4. Write the standard measurements.

_____ seconds = 1 minute

_____ hours = 1 day

_____ inches = 1 yard

_____ days = 1 year

_____ square inches = 1 square foot

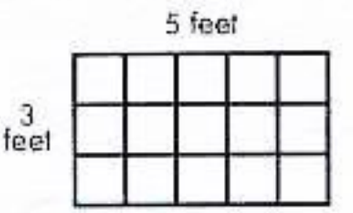
_____ square feet = 1 square yard

5. Write the perimeter and area measurement.

Label answers correctly.

perimeter _____

area _____



6. Write the smallest and largest numbers. 6 5 0 2

smallest _____ largest _____

7. Rewrite the fraction problems. Add or subtract.

$\frac{3}{7} + \frac{2}{7} =$

$\frac{7}{9} - \frac{4}{9} =$

8. Circle the correct operation signs.

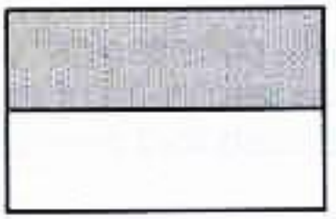
9,170 (=, ≠) 9,107

5,673 (>, <) 5,637

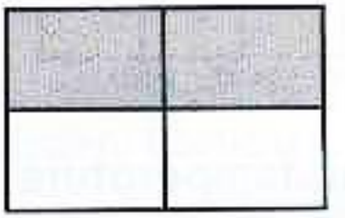
4 + 5 (=, ≠) 17 – 9

14 – 6 (>, <) 15 – 6

9. Write the fraction for the shaded part.



_____



_____

10. Write the money in digits. Add. (3 points)

_____

\+ _____

11. Write Roman numerals in Arabic numerals. (2 points)

LXXIX = _____ = _____ = _____

12. Round the numbers. Add. (2 points each)

79 _____

\+ 36 _____

231 _____

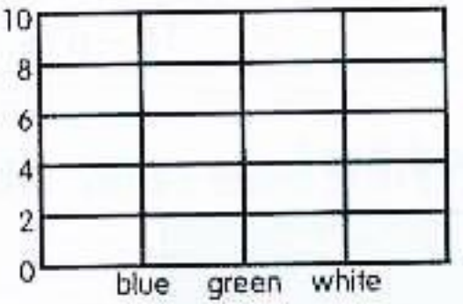
\+ 495 _____

13. Write in digits and operation signs.

Five plus three is equal to sixteen minus eight. _____

Thirty is less than forty-six. _____

14. Complete the line graph.
Show 7 blue cars, 3 green cars, and 4 white cars. (1 point)



15. Draw an example of ...

a line segment with end points.

an angle.

16. Write the temperature.

_____ °F

17. Write in number words. 8,054

_____

18. Find the answer to the problem. (2 points)

Chris had $9.34 to spend at the store. He spent $6.53 on a model airplane, and 79¢ on glue. How much money did Chris have after he paid for the airplane and the glue? _____
