

## How to Access Labs on KodeKloud

To access the labs for "Linux Foundation Certified System Administrator (LFCS)" on KodeKloud, please follow these steps:

- Go to [this course link on KodeKloud](#).
- On the course page, click on the blue button labeled "Sign in to Enroll" on the right side of the screen.
- Refer to the screenshot below for reference (the button is circled in red):
- Sign in with your credentials or create an account if you don't have one.
- Once signed in and enrolled, you'll have access to all the labs and lessons in the course.

The screenshot shows the course page for "Packt Labs: Linux Foundation Certified System Administrator (LFCS)". The page has a purple and blue gradient background. At the top, there are tags for "Free", "DevOps", "Certification", and "Linux". The main title is "Packt Labs: Linux Foundation Certified System Administrator (LFCS)". Below the title, it says "Level: Beginner" and "Prepare for the Linux Foundation Certified System Administrator (LFCS) Exam". There are two instructors listed: Alexandru Andrei (Technical Writer) and Jeremy Morgan (Innovative Tech Leader, Linux Expert, & Educator). A central image shows two men, one with a laptop and one with a server rack. At the bottom, there is a paragraph of text about the course and a "READ MORE" link.

The screenshot shows the "Course Progress" sidebar for the LFCS course. It displays "0% Complete" and "0/33 Lessons". A blue button labeled "Continue Learning" is circled in red. Below it is a button labeled "Unenroll in This Course". Under the "Course Includes" section, there are several items: Course Certificate, Demo, English, 7 Modules, 33 Lessons, 29 Labs, Mock exam, Community support, and Discord Community Support.
