Migrating Virtual Machines

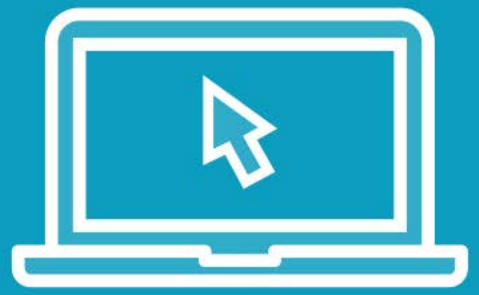
Andrew Mallett
LINUX AUTHOR AND TRAINER

@theurbanpenguin web.theurbanpenguin.com

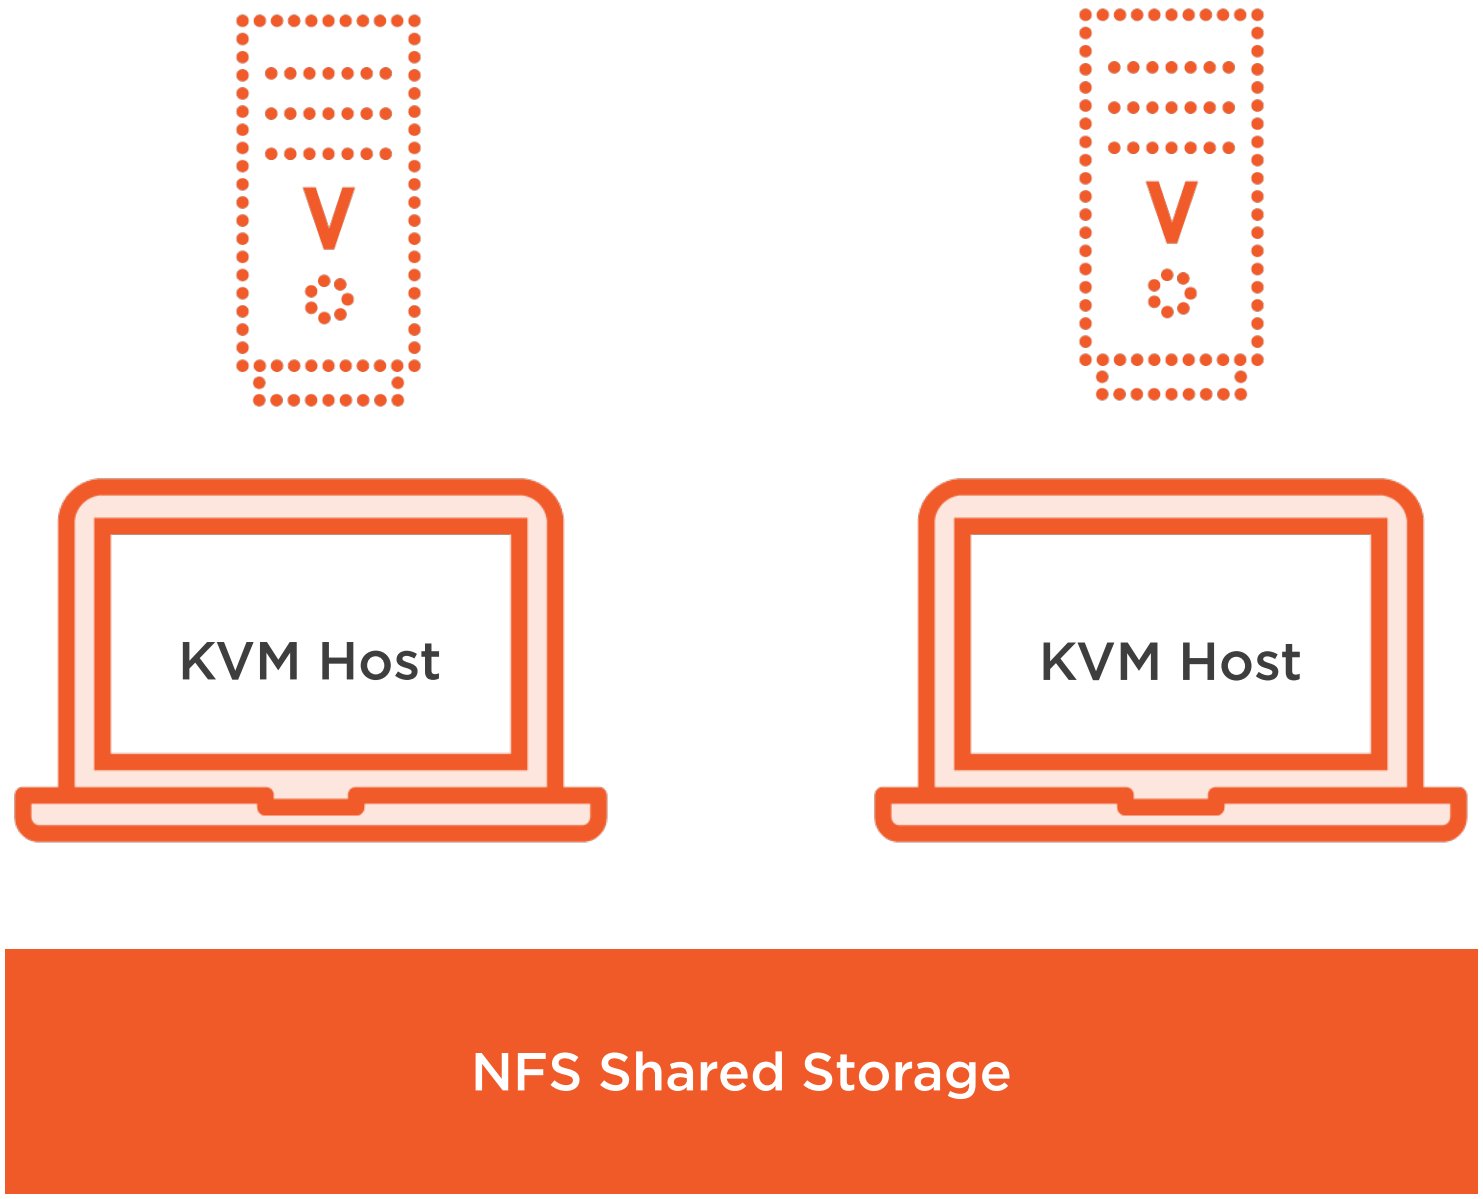
Exam Objectives

Migrate a VM between two hosts

Demo



- NFS Storage
- Creating shared storage and volumes
- Migrating virtual machines



V
V
KVM Host
KVM Host
NFS Shared Storage

NFS Storage

Defining Shared Storage

Migrating Virtual Machines

Live Migration

Central NFS Storage

Create Disk Volume from One Host

No-Cache

Define Storage Pools on Each Host

Install to Disk Volume on One Host

Migrate

Next up: Using Docker
